international institutions from the international monetary fund to the international olympic committee are perceived as bastions of sclerotic mediocrity at best and outright corruption at worst and this perception is generally not far off the mark in the wake of the 2008 financial crash daniel w drezner like so many others looked at the smoking ruins of the global economy and wondered why global economic governance structure had failed so spectacularly and what could be done to reform them in the future but then a funny thing happened as he surveyed their actions in the wake of the crash he realized that the evidence pointed to the exact opposite conclusion global economic governance had succeeded in the system worked drezner a renowned political scientist and international relations expert contends that despite the massive scale and reverberations of this latest crisis larger arguably than those that precipitated the great depression the global economy has bounced back remarkably well examining the major resuscitation efforts by the g 20 imf wto and other institutions he shows that thanks to the efforts of central bankers and other policymakers the international response was sufficiently coordinated to prevent the crisis from becoming a full fledged depression yet the narrative about the failure of multilateral economic institutions persists both because the great recession affected powerful nations whose governments managed their own economies poorly and because the most influential policy analysts who write the books and articles on the crisis hail from those nations nevertheless drezner argues while it is true that the global economy is still fragile these institutions survived the stress test of the financial crisis and may have even become more resilient and valuable in the process bucking the conventional wisdom about the new g zero world drezner rehabilitates the image of the much maligned international institutions and demolishes some of the most dangerous myths about the financial crisis the system worked is a vital contribution to our understanding of an area where the stakes could not be higher

the rise of china has been shaped and driven by its engagement with the global economy during a period of intensified globalization yet china is a continent sized economy and society with substantial diversity across its different regions this means that its engagement with the global economy cannot just be understood at the national level but requires analysis of the differences in participation in the global economy across china's regions this book responds to this challenge by looking at the development of china's regions in this era of globalization it traces the evolution of regional policy in china and its implications in a global context detailed chapters examine the global trajectory of what is now becoming known as the greater bay area in southern china the globalization of the inland mega city of chongqing and the role of china's regions in the globally focused belt and road initiative launched by the chinese

in the initial phase of the obama administration india s ruling class and strategic community formed a perception that the spirit of strategic partnership between the two countries might be diluted on account of china looming large in the priorities of this administration despite occasional hiccups in their relationship this perception was overshadowed by the administration s recognition of india s role as counterweight to china in the asia pacific region this book addresses and re evaluates the perceptions policies and perspectives of public policy makers and bureaucratic elites in both india and the us in setting and articulating the tone tenor and substance of the multi faceted ties between the two countries the scope of the book is not exclusively limited to the bilateral relationship in the critical areas such as the indo us nuclear deal defence security and strategic partnership its concerns and ramifications are much wider in global and regional contexts covering involving security architecture in the asia pacific region the interface between terrorism and weapons of mass destruction wmds china as a factor in india us relations and the fallout of the new delhi washington partnership on south asia

is the united states still a superpower how are the rising powers establishing themselves in international politics and security what is the future of global stability for over a decade bruce jones has had a front row seat as the emerging powers principally china india and brazil but also turkey indonesia korea and others thrust themselves onto the global stage from delhi to doha to beijing to brasilia he s met with the politicians diplomats business leaders and scholars of those powers as they craft their strategies for rising influence and with senior american officials as they forge their

response in still ours to lead jones tells a nuanced story of american leadership he artfully examines the tension between the impulse to rival the united states and the incentives for restraint and cooperation among the rising powers that balance of rivalry and restraint provides the united states with a continued ability to solve problems and to manage crises at roughly the same rate as when american dominance was unquestioned maintaining the balance is central to the question of whether we will live in a stable or unstable system in the period to come but it just so happens that this challenge plays to america s unique strength its unparalleled ability to pull together broad and disparate coalitions for action to succeed america must adapt its leadership to new realities
